POLICY:

Rockford Ambulatory Surgery Center informs each patient of his or her rights in a language or method of communication that the patient understands whenever possible. Complaints and grievances related to patient care and services at Rockford Ambulatory Surgery Center are addressed according to the following guidelines.

PURPOSE:

To provide guidelines for staff regarding the difference between complaints and grievances, and to identify the process for responding to patient grievances according to federal regulations.

- A complaint involving, or alleging, a violation of a patient’s rights, OR
- A patient or their representative requests their complaint be handled as a “grievance”

(Billing issues are not considered grievances unless the complaint also contains elements addressing patient service or care issues.)

GUIDELINES:

Prior to receiving care, patients will be informed of their rights, including their rights to resolution of a grievance. Every effort will be made to provide this information in a language and manner understandable to the concerned patient or patient representative.

- The grievance process will provide prompt resolution of substantiated allegations related to treatment or care that is (or fails to be) furnished.
- The patient will be assured that exercising this right will not compromise patient care.
- The patient will be assured of confidentiality.
- The patient will be informed of whom to contact within RASC to file a grievance.
